CONTENTS

Preface xxvii

PART 1 **ROLE AND SIZE OF THE PUBLIC SECTOR** 1

1 **DEFINING PUBLIC SECTOR RESPONSIBILITIES** 3

The Economic Role of Government 4

- The Mixed Economy of the United States 4
- Different Perspectives on the Role of Government 6
- An Impetus for Government Action: Market Failures 7
- Achieving Balance between the Public and Private Sectors 10
- The Emerging Consensus 11

Thinking Like a Public Sector Economist 13

- Analyzing the Public Sector 15
- Economic Models 17
- Case Study* *Musgrave's Three Branches* 18
- Normative versus Positive Economics 19

Disagreements among Economists 21

- Differences in Views on How the Economy Behaves 21
- Disagreement over Values 23
- Case Study* *Public Sector Economics and
the Global Economic Crisis* 23

Review and Practice 24

- Summary 24
- Key Concepts 24
- Questions and Problems 25

2 MEASURING PUBLIC SECTOR SIZE 26**What or Who Is the Government? 27****Types of Government Activity 29**

Providing a Legal System 30

Government Production 30

Government's Influence on Private Production 33

Government Purchases of Goods and Services 36

Government Redistribution of Income 36

Overview of Government Expenditures 40

Gauging the Size of the Public Sector 42Growth in Expenditures and Their Changing
Composition 42*Case Study Estimating the Full Budgetary and
Economic Costs of War 43*

Comparison of Expenditures across Countries 45

Government Revenues 47

Taxes and the Constitution 47

Federal Taxation Today 48

State and Local Government Revenues 49

Comparison of Taxation across Countries 50

Deficit Financing 51**Playing Tricks with the Data on Government
Activities 55****Review and Practice 56**

Summary 56

Key Concepts 57

Questions and Problems 57

**PART 2 FUNDAMENTALS OF WELFARE
ECONOMICS 59****3 MARKET EFFICIENCY 61****The Invisible Hand of Competitive Markets 61****Welfare Economics and Pareto Efficiency 63***Case Study On the Prowl for Pareto
Improvements 64*

Pareto Efficiency and Individualism 65

The Fundamental Theorems of Welfare Economics 66

Efficiency from the Perspective of a Single Market 68

Analyzing Economic Efficiency 69

The Utility Possibilities Curve 69

Exchange Efficiency 70

Production Efficiency 74

Product Mix Efficiency 78

Review and Practice 79

Summary 79

Key Concepts 80

Questions and Problems 80

4 MARKET FAILURE 81**Property Rights and Contract Enforcement 82**

Case Study *Property Rights and Market Failures:
The Tragedy of the Commons Revisited* 82

Market Failures and the Role of Government 83

1. Failure of Competition 83

2. Public Goods 86

3. Externalities 86

4. Incomplete Markets 87

Case Study *Student Loans: Incomplete Reform of an
Incomplete Market* 89

5. Information Failures 91

6. Unemployment, Inflation, and Disequilibrium 93

Interrelationships of Market Failures 93

Case Study *Market Failures: Explanations or Excuses?* 94

Redistribution and Merit Goods 95**Two Perspectives on the Role of Government 97**

Normative Analysis 97

Positive Analysis 98

Review and Practice 99

Summary 99

Key Concepts 99

Questions and Problems 100

5 PUBLIC GOODS AND PUBLICLY PROVIDED PRIVATE GOODS 101**Public Goods 102**

Public Goods and Market Failures 103

Paying for Public Goods 103

The Free Rider Problem 105

Case Study *Economists and the Free Rider Problem* 106

Pure and Impure Public Goods 107

Case Study *Property Rights, Excludability, and
Externalities* 110

Publicly Provided Private Goods 111

Rationing Devices for Publicly Provided Private Goods 113

Efficiency Conditions for Public Goods 116

Demand Curves for Public Goods 117

Pareto Efficiency and Income Distribution 122

Limitations on Income Redistribution and the Efficient
Supply of Public Goods 122

Distortionary Taxation and the Efficient Supply of
Public Goods 123

Efficient Government as a Public Good 124

Review and Practice 125

Summary 125

Key Concepts 125

Questions and Problems 126

APPENDIX: The Leftover Curve 127

6 EXTERNALITIES AND THE ENVIRONMENT 129

The Problem of Externalities 130

Private Solutions to Externalities 132

Internalizing Externalities 132

The Coase Theorem 133

Using the Legal System 134

Case Study The Exxon Valdez Oil Spill 135

Failures of Private Solutions 136

Public Sector Solutions to Externalities 138

Case Study Double Dividend 138

Market-Based Solutions 139

Regulation 145

Innovation 146

Information Disclosure 148

Compensation and Distribution 149

**Protecting the Environment: The Role of
Government in Practice 150**

Air 151

Water 155

Land 156

Concluding Remarks 159

Review and Practice 159

Summary 159

Key Concepts 160

Questions and Problems 160

7 EFFICIENCY AND EQUITY 163

Efficiency and Distribution Trade-Offs 164

Analyzing Social Choices 164

Determining the Trade-Offs 166

Evaluating the Trade-Offs 169

Two Caveats 173

Social Choices in Practice	174
Measuring Benefits	175
Ordinary and Compensated Demand Curves	178
Consumer Surplus	179
Measuring Aggregate Social Benefits	181
Measuring Inefficiency	181
<i>Case Study</i> <i>Drawing a Poverty Line</i>	182
Quantifying Distributional Effects	184
<i>Case Study</i> <i>The Great Gatsby Curve</i>	185
Three Approaches to Social Choices	186
The Compensation Principle	186
Trade-Offs across Measures	186
Weighted Net Benefits	187
The Trade-Off between Efficiency and Fairness Revisited	188
Review and Practice	189
Summary	189
Key Concepts	190
Questions and Problems	190
APPENDIX: Alternative Measures of Inequality	192
The Lorenz Curve	192
The Dalton–Atkinson Measure	194

PART 3 PUBLIC EXPENDITURE THEORY 197

8 PUBLIC PRODUCTION OF GOODS AND SERVICES 199

Natural Monopoly: Public Production of Private Goods 201

The Basic Economics of Natural Monopoly	202
Regulation and Taxation (Subsidies)	206
No Government Intervention	209
Government Failures	210
<i>Case Study</i> <i>Rent Control and Agricultural Price Supports: Case Studies in Government Failure</i>	211

Comparison of Efficiency in the Public and Private Sectors 213

<i>Case Study</i> <i>National Performance Review</i>	214
--	-----

Sources of Inefficiency in the Public Sector 216

Organizational Differences	216
Individual Differences	217
Bureaucratic Procedures and Risk Aversion	220

Corporatization 221

<i>Case Study</i> <i>Privatizing Prisons</i>	224
--	-----

A Growing Consensus on Government's Role in Production 225

Review and Practice 227

Summary 227

Key Concepts 228

Questions and Problems 228

9 PUBLIC CHOICE 230

Public Mechanisms for Allocating Resources 230

The Problem of Preference Revelation 231

Individual Preferences for Public Goods 232

The Problem of Aggregating Preferences 236

Majority Voting and the Voting Paradox 237

Arrow's Impossibility Theorem 238

Single-Peaked Preferences and the Existence of a
Majority Voting Equilibrium 240

The Median Voter 243

The Inefficiency of the Majority Voting Equilibrium 243

The Two-Party System and the Median Voter 246

Case Study Social Choice Theory 248

Alternatives for Determining Public Goods Expenditures 249

Lindahl Equilibrium 249

Politics and Economics 252

Why Do Individuals Vote? 252

Elections and Special Interest Groups 253

The Power of Special Interest Groups 254

Other Aspects of the Political Process 255

Case Study Campaign Finance Reform 256

The Altruistic Politician? 257

The Persistence of Inefficient Equilibrium 258

Review and Practice 259

Summary 259

Key Concepts 260

Questions and Problems 260

APPENDIX: New Preference-Revelation Mechanisms 262

PART 4 PUBLIC EXPENDITURE IN PRACTICE 267

10 FRAMEWORK FOR ANALYSIS OF EXPENDITURE POLICY 269

Need for a Program 270

Market Failures 271

Case Study Higher Education in the United States 272

Alternative Forms of Government Intervention 272

The Importance of Particular Design Features	274
Private Sector Responses to Government Programs	275
Efficiency Consequences	277
Income and Substitution Effects and Induced Inefficiency	277
Distributional Consequences	281
Evaluating the Distributional Consequences	284
<i>Case Study Incidence of Education Tax Credits</i>	284
Fairness and Distribution	286
Equity–Efficiency Trade-Offs	287
Public Policy Objectives	290
Political Process	291
Review and Practice	294
Summary	294
Key Concepts	294
Questions and Problems	294

11 EVALUATING PUBLIC EXPENDITURE 296

Private Cost–Benefit Analysis	297
Present Discounted Value	297
Social Cost–Benefit Analysis	299
Consumer Surplus and the Decision to Undertake a Project	300
Measuring Nonmonetized Costs and Benefits	303
Valuing Time	304
Valuing Life	304
<i>Case Study Children, Car Safety, and the Value of Life</i>	305
Valuing Natural Resources	307
Shadow Prices and Market Prices	308
Discount Rate for Social Cost–Benefit Analysis	309
<i>Case Study Climate Change and Discount Rates</i>	312
The Evaluation of Risk	314
Risk Assessment	317
Distributional Considerations	318
Cost Effectiveness	319
Post-Expenditure Evaluation: Assessing and Improving Government Performance	323
<i>Case Study Taking a Bite Out of Crime in the Big Apple</i>	324
Review and Practice	326
Summary	326
Key Concepts	327
Questions and Problems	327

12 DEFENSE, RESEARCH, AND TECHNOLOGY 329**Defense Expenditures 330**

The Value of Marginal Analysis 333

Defense Strategy 334

Case Study *Game Theory, the Arms Race, and the Theory of Deterrence* 336*Case Study* *Converting Swords into Plowshares* 338**Increasing the Efficiency of the Defense****Department 339**

Defense Procurement 339

Defense Conversion 343

Accounting and the Defense Department 344

Research and Technology 345

Market Failures 348

Case Study *The Scope of the Patent: Can the Human Body Be Patented?* 350

Government Direct Support 353

Review and Practice 354

Summary 354

Key Concepts 355

Questions and Problems 355

13 HEALTH CARE 357**The Health Care System in the United States 360**

The Private Sector 364

The Role of Government 364

Other Expenditure Programs 365

Tax Expenditures 366

Rationale for a Role of Government in the Health Care Sector 367

Imperfect Information 368

Limited Competition 369

Absence of Profit Motive 370

Special Characteristics of the U.S. Market 371

The Role of the Health Insurance Industry 372

Case Study *Medical Malpractice* 372

Insurance and Excessive Expenditures on Health Care 374

Consequences of Inefficiencies in Health Care Markets 379

Poverty, Incomplete Coverage, and the Role of Government 381

Reforming Health Care 382

Cost Containment 383

Case Study *Comprehensive Health Care Reform* 384

Extending Insurance Coverage 385

Medicare Reform: Easing Long-Term Fiscal Strains	387
Reforming Medicaid	390
Review and Practice	391
Summary	391
Key Concepts	392
Questions and Problems	392

14 EDUCATION 394

The Structure of Education in the United States	397
Federal Tax Subsidies to Private and Public Schools	399
Why Is Education Publicly Provided and Publicly Financed?	401
Is There a Market Failure?	401
The Federal Role	403
Issues and Controversies in Educational Policy	403
Education Outcomes	404
Do Expenditures Matter?	405
School Vouchers: Choice and Competition	407
<i>Case Study Vouchers: The San Jose and Milwaukee Experiments</i>	412
School Decentralization	413
Performance Standards: No Child Left Behind and Race to the Top	414
Inequality	416
Aid to Higher Education	418
Review and Practice	422
Summary	422
Key Concepts	423
Questions and Problems	423
APPENDIX: How Should Public Educational Funds Be Allocated?	425

15 WELFARE PROGRAMS AND THE REDISTRIBUTION OF INCOME 428

A Brief Description of Major U.S. Welfare Programs	430
AFDC and TANF	430
Earned Income Tax Credit	431
Food Stamps/SNAP	432
Medicaid	434
Housing	435
Other Programs	436
Rationale for Government Welfare Programs	437
Dimensions of the Problem	438

Analytic Issues 440

Labor Supply 440

Cash versus In-Kind Redistribution 444

Inefficiencies from In-Kind Benefits 445

Are In-Kind Benefits Paternalistic? 450

Categorical versus Broad-Based Aid 451

Is Means Testing Objectionable in Its Own Right? 453

Other Distortions 453

Case Study Conditional Cash Transfer Programs 454**Welfare Reform: Integration of Programs 456****The Welfare Reform Bill of 1996 458**

Block Granting 458

Analytics of State Responses to Block Grants 459

Time Limits 461

Mandatory Work 461

The Welfare Reform Debate of 1996 462

Case Study The Person or the Place? 464**Concluding Remarks 466****Review and Practice 466**

Summary 466

Key Concepts 467

Questions and Problems 468

16 SOCIAL INSURANCE 470**The Social Security System 472****Social Security, Private Insurance, and
Market Failures 475**

High Transactions Costs 476

Risk Mitigation 477

Lack of Indexing: The Inability of Private Markets to
Insure Social Risks 477Adverse Selection, Differential Risks, and
the Cost of Insurance 478

Moral Hazard and Social Security 480

Retirement Insurance as a Merit Good 481

Social Security, Forced Savings, and Individual Choice 481

Is There a Need to Reform Social Security? 482

The Nature of the Fiscal Crisis 484

Savings 487

Labor Supply 488

The Rate of Return 490

Inequities 491

Reforming Social Security 492

Reducing Expenditures 492

Increasing Revenues 494

Structural Reforms	495
<i>Case Study Social Security Abroad</i>	496
Review and Practice	500
Summary	500
Key Concepts	501
Questions and Problems	501

PART 5 TAXATION IN THEORY 503

17 INTRODUCTION TO TAXATION 505

Background 506

Forms of Taxation	507
Changing Patterns of Taxation in the United States	508
Comparisons with Other Countries	509

The Five Desirable Characteristics of Any Tax System 511

Economic Efficiency	512
Administrative Costs	517
<i>Case Study Corrective Taxes and the Double Dividend</i>	518
Flexibility	520
Transparent Political Responsibility	521
Fairness	523
<i>Case Study Corruption-Resistant Tax Systems</i>	531

General Framework for Choosing among Tax Systems 532

Utilitarianism	533
Rawlsian Social Welfare Function	534

Review and Practice 536

Summary	536
Key Concepts	537
Questions and Problems	537

18 TAX INCIDENCE 538

Tax Incidence in Competitive Markets 540

Effect of Tax at the Level of a Firm	540
Impact on Market Equilibrium	542
Does It Matter Whether the Tax Is Levied on Consumers or on Producers?	543
<i>Case Study The Incidence of Government Benefits</i>	544
Ad Valorem versus Specific Taxes	545
The Effect of Elasticity	546
Taxation of Factors	548
<i>Case Study The Philadelphia Wage Tax</i>	549

Tax Incidence in Environments without Perfect Competition 552

Relationship between the Change in the Price and the Tax 554

Ad Valorem versus Specific Taxes 556

Tax Incidence in Oligopolies 556

Equivalent Taxes 557

Income Tax and Value-Added Tax 557

Equivalence of Consumption and Wage Taxes 558

Equivalence of Lifetime Consumption and

Lifetime Income Taxes 559

A Caveat on Equivalence 560

Other Factors Affecting Tax Incidence 560

Tax Incidence under Partial and General Equilibrium 560

Case Study Behavioral Economics, Managerial Capitalism, and Tax Incidence 561

Short-Run versus Long-Run Effects 564

Open versus Closed Economy 564

Associated Policy Changes 565

Case Study Tax Incidence of Specific Tax Provisions 566

Incidence of Taxes in the United States 566

Review and Practice 570

Summary 570

Key Concepts 570

Questions and Problems 571

APPENDIX: Comparison of the Effects of an Ad Valorem and Specific Commodity Tax on a Monopolist 572

19 TAXATION AND ECONOMIC EFFICIENCY 574

Effect of Taxes Borne by Consumers 575

Substitution and Income Effects 576

Quantifying the Distortions 577

Measuring Deadweight Loss Using Indifference Curves 578

Measuring Deadweight Loss Using Compensated

Demand Curves 580

Calculating the Deadweight Loss 582

Effect of Taxes Borne by Producers 584

Effects of Taxes Borne Partly by Consumers,

Partly by Producers 587

Taxation of Savings 588

Quantifying the Effects of an Interest Income Tax 591

Taxation of Labor Income 591

Effects of Progressive Taxation 593

Case Study The 1993, 2001, and 2003 Tax Reforms 596

Secondary Labor Force Participants 597

Measuring the Effects of Taxes on Labor Supplied 597

Statistical Techniques Using Market Data 598

Experiments 600

Review and Practice 603

Summary 603

Key Concepts 604

Questions and Problems 604

APPENDIX: Measuring the Welfare Cost of User Fees 605**20 OPTIMAL TAXATION 606****Two Fallacies of Optimal Taxation 607**

The Fallacy of Counting Distortions 607

Misinterpretations of the Theory of the Second Best 607

Optimal and Pareto Efficient Taxation 608

Lump-Sum Taxes 609

Why Impose Distortionary Taxes? 609

Case Study Estimating the Optimal Tax Rate 610*Case Study Rent Seeking, Inequality, and
Optimal Taxation* 611

Designing an Income Tax System 611

Why Does More Progressivity Imply More
Deadweight Loss? 612A Diagrammatic Analysis of the Deadweight Loss
of Progressive Taxation 614

Choosing among Flat-Rate Tax Schedules 615

*Case Study The 1993 Tax Increase on Upper-Income
Individuals: A Pareto Inefficient Tax?* 616

General Equilibrium Effects 617

Case Study Flat-Rate Taxes Arrive on the Political Scene 618**Differential Taxation 621**

Ramsey Taxes 621

Differential Commodity Taxes in Advanced Countries
with Progressive Income Taxes 625

Interest Income Taxation and Commodity Taxation 626

Taxes on Producers 627The Dependence of Optimal Tax Structure on the
Set of Available Taxes 629**Review and Practice 630**

Summary 630

Key Concepts 631

Questions and Problems 631

APPENDIX A: Deriving Ramsey Taxes on Commodities 632**APPENDIX B: Derivation of Ramsey Formula for
Linear Demand Schedule 634**

21 TAXATION OF CAPITAL 636**Should Capital Be Taxed? 638**

Relationship among Consumption Taxes, a Wage Tax, and
Exempting Capital Income from Taxation 638

Equity Issues 638

Efficiency Arguments 639

Administrative Problems 640

Effects on Savings and Investment 641

Effects of Reduced Savings in a Closed Economy 641

The Distinction between Savings and Investment 642

National Savings and Budget Neutrality 644

Effects of Reduced Savings in an Open Economy 646

Impact on Risk Taking 648

Why Capital Taxation with Full Loss Deductibility May
Increase Risk Taking 649

Case Study Tax Incentives for Risk Taking 650

Why Capital Taxation May Reduce Risk Taking 651

Measuring Changes in Asset Values 652

Capital Gains 653

Case Study Equity and the Reduction in
Capital Gains Taxes 654

Depreciation 657

Case Study Distortions from Depreciation 657

Neutral Taxation 659

Inflation 659

Review and Practice 662

Summary 662

Key Concepts 663

Questions and Problems 663

PART 6 TAXATION IN PRACTICE 665**22 THE PERSONAL INCOME TAX 667****Outline of the U.S. Income Tax 667**

Legislated versus Actual Tax Rates 672

Case Study A Loophole in the Earned Income
Tax Credit? 673

Other Taxes 673

Principles Behind the U.S. Income Tax 677

The Income-Based Principle and the Haig–Simons
Definition 677

The Progressivity Principle 679

The Family-Based Principle 680

The Annual Measure of Income Principle 683

Practical Problems in Implementing an Income Tax System 684

- Determining Income 684
- Timing 690
- Personal Deductions 690
- Deductions versus Credits 698
- Case Study* Temporary Tax Changes 699

Special Treatment of Capital Income 699

- Housing 700
- Savings for Retirement 701
- Interest on State and Municipal Bonds 703
- Capital Gains 704

Concluding Remarks 706

Review and Practice 707

- Summary 707
- Key Concepts 707
- Questions and Problems 708

23 THE CORPORATION INCOME TAX 709

The Basic Features of the Corporation Income Tax 711

The Incidence of the Corporation Income Tax and Its Effect on Efficiency 713

- The Corporation Income Tax as a Tax on Income from
Capital in the Corporate Sector 713
- Shifting of the Corporate Tax in the Long Run 715
- The Corporation Tax for a Firm without Borrowing
Constraints 717
- Incidence of the Corporation Income Tax with
Credit-Constrained Firms 718
- The Corporation Tax as a Tax on Monopoly Profits 720
- Managerial Firms: An Alternative Perspective 721

Depreciation 726

Combined Effects of Individual and Corporate Income Tax 728

- Distributing Funds: The Basic Principles 728
- The Dividend Paradox 730
- Mergers, Acquisitions, and Share Repurchases 731
- Does the Corporate Tax Bias Firms toward Debt Finance? 732
- Distortions in Organizational Form Arising because Some
Firms Do Not Have Taxable Income 734
- Are Corporations Tax Preferred? 735
- Calculating Effective Tax Rates 736

The Corporation Tax as Economic Policy 737

- Case Study* The Proposed Incremental Investment Tax Credit
of 1993: An Idea before Its Time? 738

Taxation of Multinationals 739

*Case Study Foreign Income and the Corporation
Income Tax 741*

Should There Be a Corporation Income Tax? 742

Why Is There a Corporate Income Tax at All? 743

Review and Practice 744

Summary 744

Key Concepts 744
